Attention: Mr. John Tapics, CEO

Dear Mr. Tapics:

Re: Clover Bar Unit Contracts Sold

Pursuant to our engagement letter of July 3, 2002 to perform certain services for your organization in connection with the sale of derivatives of the Balancing Pool's capacity entitlements under long-term Power Purchase Arrangements ("PPAs") for the Clover Bar, Sheerness, and Genesee generating stations, the following summarizes our procedures in respect of the first phase of the Market Achievement Plan II, the sale of Clover Bar Unit Contracts, completed July 25, 2002. As a result of this first phase, the Balancing Pool sold two of the four Clover Bar Unit Contracts.

As requested and agreed, we undertook the following oversight procedures related to the first phase of the Balancing Pool's auction process as described below:

- On July 3, 2002, we received directly from the Balancing Pool a written copy of the Balancing Pool's reserve prices prior to the receipt of any final bids. We maintained control over this copy until the completion of the auction process.
- We verified that the reserve prices were not altered following the receipt of final bids.
- On July 29, 2002, subsequent to the closing of the bid process, we received directly from the Balancing Pool copies of all final bids received and details of the successful bids accepted.
- We verified that such bids were not lower than the reserve prices as previously provided to us.

We very much appreciated the opportunity to serve you on this engagement.

Yours sincerely,

G.J. Rodych
